FOREWARD

The mission of the Naval Aerospace Medical Research Laboratory is to conduct research, development, test, and evaluation in aviation medicine and allied sciences to enhance the health, safety, and readiness of Navy and Marine Corps personnel in the effective performance of peacetime and contingency missions, and to perform such other functions or tasks as may be required by higher authority.

This report lists citations of all unclassified research reports, special reports, monographs, journal articles, and proceedings that were published by the Naval Aerospace Medical Research Laboratory during calendar years 1981 through 1986.

All requests for copies of technical reports, which are identified by AD numbers, should be addressed to:

Defense Technical Information Center
Cameron Station
Alexandria, VA 22314
(AUTOVON 284-7633, commercial 202/274-7633).

Requests for reprints of open literature articles should be addressed to the author.
